I. What Is Volunteer Connection?

Volunteer Connection is the American Red Cross online volunteer management system. All Red Cross volunteers 13 years of age and older must be registered in Volunteer Connection. Volunteer Connection allows volunteers to:

- Find volunteer opportunities, schedule shifts, and register for events
- Record volunteer hours (especially useful for college applications)
- Stay updated on news from your local Red Cross and National Headquarters

In addition, Red Cross Club leaders can create a group for their Club where they can conveniently register and communicate with Club members. Youth leaders can use Volunteer Connection to:

- Mass email members
- Track members' volunteer hours
- Schedule service projects, Club activities, and meetings
- Post minutes and other important Club documents
- Create discussion forums and design surveys

II. Why Use Volunteer Connection?

90% of the American Red Cross workforce consists of volunteers. We rely on the hours logged by our volunteers in order to track the impact that volunteers are making.

- According to the Independent Sector, the value of a volunteer hour is around $25.1
- By quantifying the time our volunteers are donating to the Red Cross, we can demonstrate to our donors, community leaders, and the general public the value of our volunteers’ time in service to the Red Cross mission and the power of our volunteers.
- Recorded hours from Red Cross youth volunteers allow regions to monitor the contribution from youth and young adults and helps justify budget allocations and resources spent on youth programming.
